

# Color Stain Base

for Concrete Stain

## Product Description:

Ready Rock Color Stain Base is a non-acid product ideal for use in staining concrete. With the added colorant this product is a penetrating stain that is UV resistant. Designed for the use over new and old concrete. Uses: May be used on concrete decks, floors and walls. May also be used for sealing heavy pores in concrete blocks. May also be used for previously primed wood or metal surfaces.

**Surface preparation:** Surface must be clean and free of oil, wax, grease, dirt and sanding dust. Recommend power washing the surface with a minimum 3000 psi power washer. If surface is smooth or hard trowel, then an acid wash is recommended to etch the surface. Make sure the acid wash is neutralized and thoroughly removed. Do a wet test by dropping a small amount to water on a dry area of the concrete surface checking that the water is not beading up, and is penetrating into the concrete. If the water beads up on the surface, this product should not be used.

**Application:** Add the colorant to the Color Stain Base and stir thoroughly until the color is evenly dispersed. Product can be sprayed or brushed on in light coats. Do not over spray or allow product to pond up, the concrete should absorb the product. Allow the stain to dry. Once the product is dry to the touch, then proceed with a concrete sealer for additional protection.

**Dry Time:** @ 77 ° F Touch 35-40 min. **Re-**

**Coat:** 2-4 hrs

**Note:** Do not apply product when temperatures are less than 40° for a 48-72 hour period. High moisture and low temperatures could cause the product to fail during curing time.

**Clean-Up:** Wash equipment with water. Do not allow product to dry on tools.

**Storage:** Store in a safe place, out of direct sunlight. Keep containers tightly sealed. Protect from freezing.

## Health Hazards:

**DANGER! Harmful or fatal if swallowed.** May cause eye, skin, nose, and throat irritation.

**Skin:** Avoid skin contact. If skin contact occurs, flush with large amounts of soapy water and rinse. Wear protective clothing and impervious gloves.

**Eyes:** Irritating to eyes. If material is splashed into eyes, flush with large amounts of water until irritation subsides. If irritation does not subside, seek medical attention. Wear eye protection with side shields.

**Inhalation:** Move to fresh air. Use in well ventilated areas.

**Ingestion:** Do Not induce vomiting. Contact a physician or poison control center. Medical Emergency? Call 1-800-327-3874

Do allow product to enter waterways, or sewage systems. Dispose of product in accordance with local, state, and federal laws. Keep container closed when not in use.

**Important Notice:** These products are sold subject only to the expressed warranties contained herein. Additional warranties, expressed or implied, and any warranty of merchantability is hereby excluded. Buyer agrees that seller assumes no liability for consequential damages of any kind, which result from the use or misuse of the merchandise sold hereunder. In the event that the buyer proves that any goods received do not conform to the specifications agreed to between parties, or if the buyer proves that such goods were defectively manufactured, the buyer remedies shall be limited to either the return of the goods and repayment of the purchase price or the replacement of the nonconforming goods at the option of the seller. Such remedy being exclusive of all others and the sole remedy available to the buyer, the buyer hereby expressly waives any claim to additional damages. Nothing in this bulletin should be interpreted as a recommendation for a use, which violates any patent rights.
